# IRAN

Freedom for women riot

The riot for womans freedom became so extreme to the point they started cutting their own hair .  
But then the leading question is :

**- "Where does it end?"**

**- "who else gets affected?"**

**- "what more can be**

# ISLAM

The only religion that's receiving backlash

Everyone focused on the TV except Yusuf

Iftar at amaans

Islam became the most targeted religion after the women's freedom riot in Iran. Mainly by Iranians bashing Islam.  
So how does this affect me as a person?

**Does it affect my life routine?  
Or does it affect my image?**

# PHOTOGRAPHY

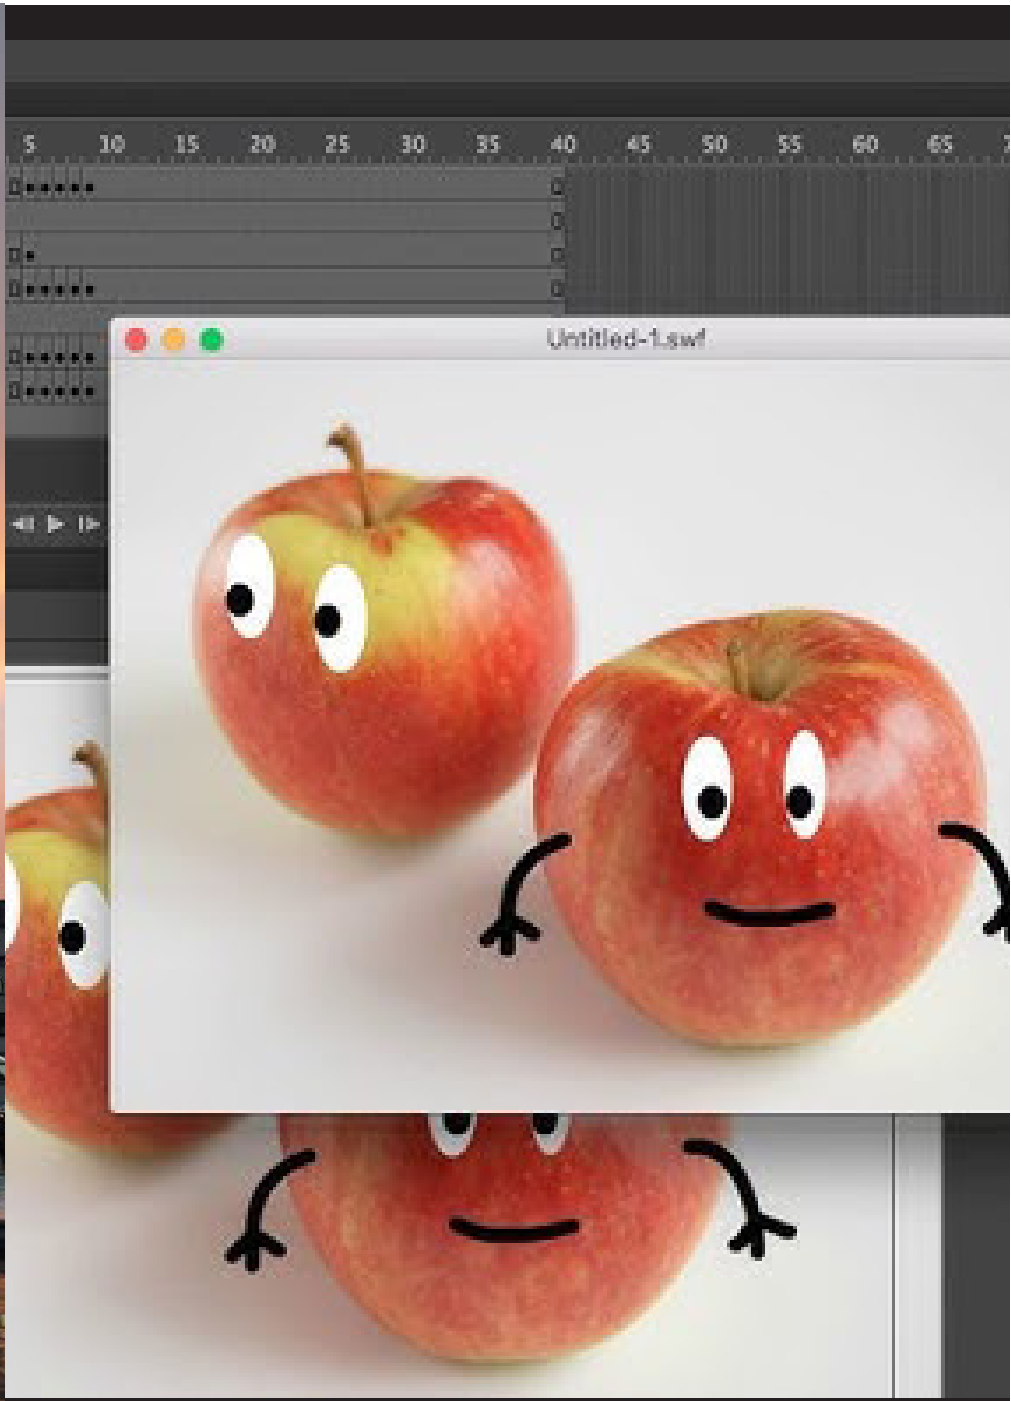

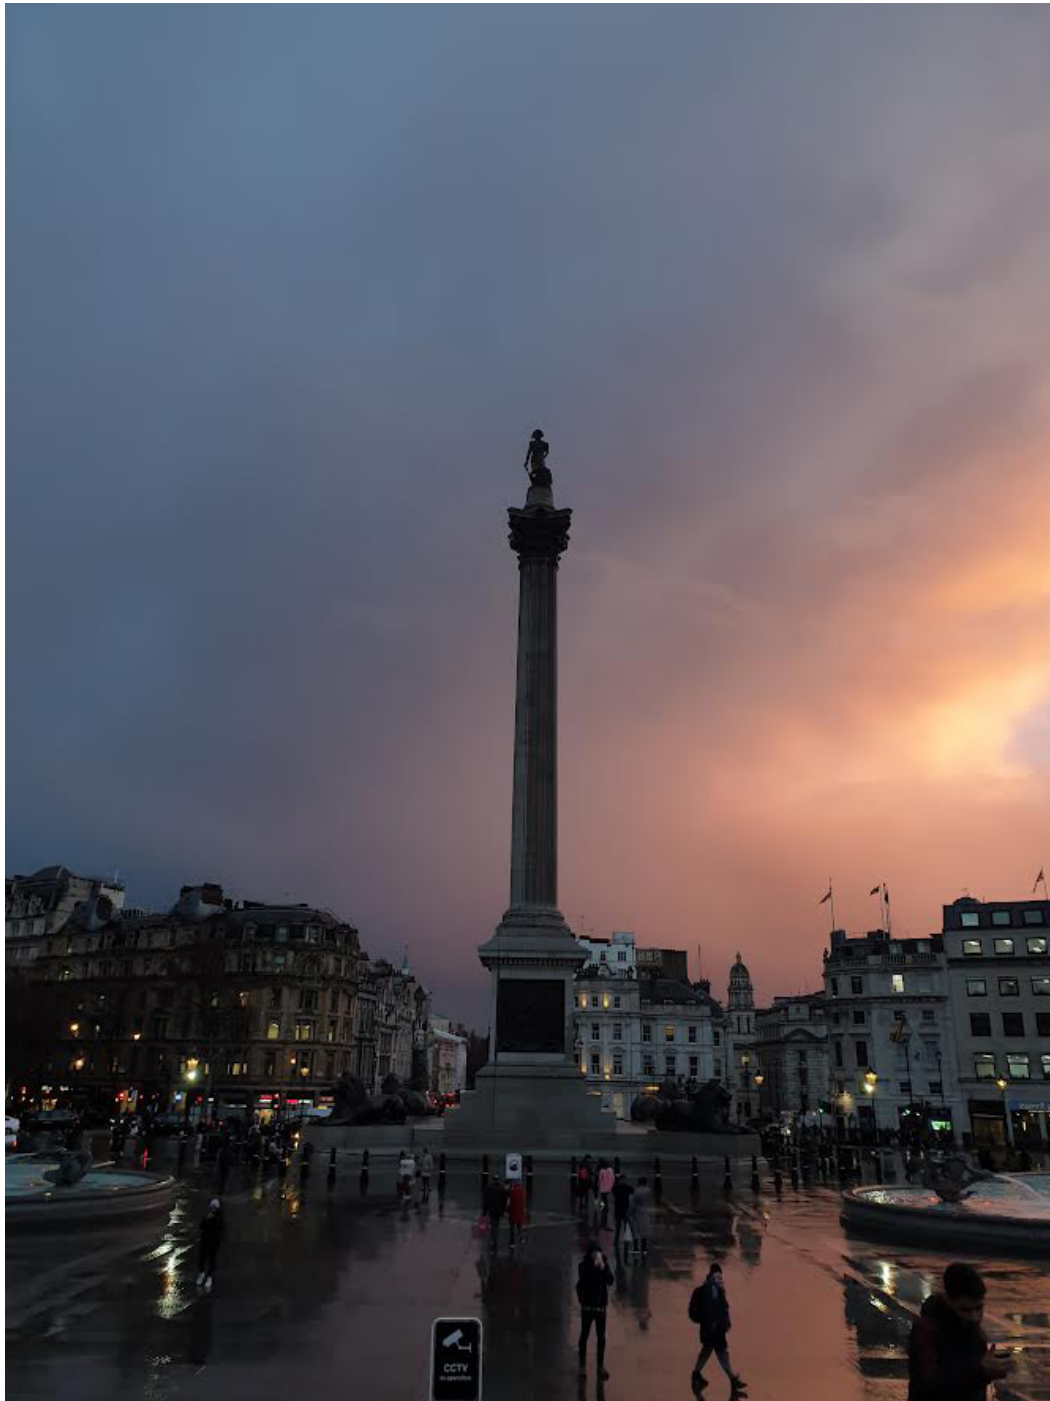

using real life photos within my work

Using the photos i have taken and using photography in general for this project would help me work with mixed media and maybe give a little bit more of my own personal twist to it. i would like to use photography to my advantage for this project to finalise my own work.

**ANY QUESTIONS?**
